Rev Amos A Phelps

Pastor of Pine St Church

Boston Mass

Paid

not as many are brought to Christ under my labors now as when I first commenced, I was in a newer country, & not so many reapers. You have labored & travelled & wrote for the press I am aware, but tell me a little of your travels history, to gratify an old friend.

Pardon me if I ask too much respecting my dear Hawley boy?

Are you the son-in-law of M. Stuart? If so present my christian salutation to Rabbi Moses, & to the man that you thought taught us physical depravity. Dr W- also to our brother B B. Edwards & others. Dr Emmerson possibly may remember me.

Express my freedom & the freedom & folly with which I speak of myself & hope it is to the honor of divine grace that I make the allusion

Affectionately yours David D Tuggey

which is reduced sometimes to one pint by Opium, is confined to meat diet, as prescribed by the Doctors or by Physicians. Urine clear almost Colorless & Saccharine.

It may be there have been improvements of which me in these corners of Creation are not apprised, & if you could lay the case before some of your acquaintances perhaps your own family Physician & through him obtain some new light, or get advice it will be gratefully received.

What are you doing in the Pine St parish. I spent a week once in one of the families of that club & a delightful week it was. The name of the family is gone from my recollections but I should love to be remembered though I do not remember. I never think of Boston but with a thrill of delight. Kittell was in our Class. He has forgotten me, but I remember him well, I mean Rev Rogers.

Tell me some news respecting the recovery of Cambridge to Orthodoxy?

I went from Andover almost 14 years ago to Chautauque County this state, where at Westfield I received a letter from you proposing to come & lecture on Abolition. You have forgotten it may be, no matter, I declined because I thought I could lead my parish best in abolition at that time. I led them into moderate abolitionism & do now. I labored in the ministry 8 years in Chautauque Co. & 6 years where I am now. have received 500 on confession & 200 by letter since I left the Seminary. have not been without a change a single sab for twelve years. & for ten years past have had from 250 to 400 communicants to watch over. The Lord helps me in preaching now more than when I first commenced altho

Dr Sir

On the ground of acquaintance formed at Andover in days of long since especially of classmateship I venture to trouble you with an item of business if it may be called business.

A dear brother in our church, Mr Elias Hawley, (a first-rate Abolitionist by the way) has a son nine years old, who is pining away with Diabetes. I spoke to the boys mother the other day of Dr John C Warren & Dr Hayward & other Boston Physicians, & expressed a conviction that it would be well for them to go to Boston. They could not well go, & the boy is too feeble probably to travel that distance. I told Mr H— that I had class-mates there that would be able I presumed to inform me from Boston Physicians whether any new light had been of late elicited respecting the disease. Let me ask you then to submit the case to some of your acquaintances of the Medical department to J. C Warren Hayward, Jackson Channing or any other whom you may approach on the ground of acquaintance & friendship, & state the case of my friends boy. The child is 9 years old, has been suffering 4 months disease slowly increasing, loses flesh gradually, always been healthy till this came on. There is now a discharge of urine of 3 pints in 24 hours
